PYTHON FULL-STACK WEB DEVELOPMENT WITH GEN AI

WHAT YOU WILL LEARN

FRONTEND DEVELOPMENT

- HTML5 | CSS3 | JavaScript (ES6)
- Responsive Web Design
- React.js | Tailwind CSS | GSAP

BACKEND DEVELOPMENT

- Python | OOPs in Python
- Django Framework
- DSA (Data Structure Algorithms)

DATABASE

- SQL | MySQL | SQLite

TOOLS

- Git & GitHub
- VS Code

OTHERS

- AWS
- Linux
- Gen AI

COURSE OVERVIEW

Python Full Stack Web Development is a comprehensive program designed to make you a job-ready web developer.

This course covers Frontend + Backend + Database + DSA + Deployment with real-world projects.

Address
Branch 1 - 152, Saif Complex, 3rd Floor, Zone-1, MP Nagar Bhopal

Branch 2 - Building-4, 2nd Floor, Krishak Nagar, Near Karond Square, Karond, Bhopal

NETLIGENT TECHNOLOGIES LLP
TRAINING & PLACEMENT INSTITUTE

TOOLS & TECHNOLOGIES

FRONTEND

MODULE - 1 - HTML

- Basics of HTML
- Basic Structure of HTML Document
- HTML Elements / Tags | Semantic Tags
- HTML Multimedia | HTML Images
- HTML List | HTML Table | HTML Form
- Text Formatting | Hyperlinks
- Attributes | Iframe

MODULE - 2 - CSS

- Inline | Internal | External CSS
- Selectors | Units | Backgrounds
- Padding | Margin | Colors | Border
- Fonts & Text Styling | Box Model
- Positioning | Flexbox | Grid Layout
- Responsive Design (Media Queries)
- Pseudo-classes & Elements
- Transitions & Animations
- Shadows | Icons | Google Fonts

MODULE - 3 - JAVASCRIPT

- Introduction to JS
- Variables | Operators | Data Types
- Conditional Statements | Loops
- Arrays | Objects | Functions
- Hoisting | Stack & Heap Memory
- Synchronous, Asynchronous Programming
- Callback | Promises | API Integration
- DOM & DOM Manipulation | BOM
- Events | Events Bubbling | Form Validation

PROJECT - 1 | PROJECT - 2

BACKEND

MODULE - 1 - PYTHON

- Introduction to Programming Language
- Variables | Operators | Keywords
- Data Types | String | Numeric | Booleans
- List | Tuple | Set | Dictionary
- Conditional Statements | Loops
- User Defined Functions
- Exceptions & File Handling
- Modules | Regular Expressions

MODULE - 2 - ADVANCED PYTHON

- User Define Modules
- Advanced Function
- OOPs (Object Oriented Programming)
- Classes & Objects
- Variables & Methods
- Inheritance | Constructor
- Polymorphism
- Encapsulation | Abstraction
- Multithreading

MODULE - 3 - DATABASE

- Introduction to Database & RDBMS
- Basics of MySQL | SQL Queries
- Working with MySQL Tables
- Data Types | Clauses | Operators
- Aggregation Function | Constraints
- MySQL Joins
- Database Connectivity

PROJECT - 3
PROJECT - 4

LIBRARIES & FRAMEWORK

MODULE - 1 - REACT

- Introduction to React | Features of React
- NPX | NPM | VITE | React Environment Setup
- Folder Structure (Basic)
- JSX (JavaScript XML) | Components
- Names & Default Exports | Event Handling
- Props | State | Hooks | Lifting State Up
- React Router | React Lists & Keys
- Conditional Rendering
- Prop Drilling | Context API
- Forms & Controlled Components
- API Integration | AXIOS

MODULE - 2 - DJANGO

- Introduction to Django | Features of Django
- MVT & MVC Architecture
- Project Directory Structure
- Templates and Static Files Organization
- Response Methods | Django Templates
- DTL (Django Template Language)
- HTTP Requests (GET, POST, PUT, DELETE)
- Django App | ORM | SMTP
- Django Model | SQLite | Hashed Password
- Admin Panel Customization
- Form Connectivity with Database

MODULE - 3

TAILWIND | GSAP | FRAMER-MOTION

FINAL PROJECT - 1
FINAL PROJECT - 2

WHAT YOU WILL LEARN MORE

MODULE - 1 - AWS CLOUD

MODULE - 2- LINUX

MODULE - 3- GIT & GIT HUB

MODULE - 4- GENERATIVE AI

CAREER OPPORTUNITIES

AFTER COMPLETING THIS COURSE, YOU CAN APPLY FOR ROLES LIKE:

- Python Developer
- Full Stack Developer
- Backend Developer
- Web Developer
- Software Engineer

COURSE HIGHLIGHTS

- ✓ Beginner to Advanced
- ✓ Industry-Oriented Curriculum
- ✓ Hands-on Live Projects
- ✓ Real-Time Coding Practice
- ✓ Interview Preparation
- ✓ Resume & GitHub Profile Support

PROJECTS YOU WILL BUILD

- Portfolio Website
- CRUD Web Application
- Authentication System
- Full Stack Web App
- Live Deployment Project
- E-Commerce Website
- Blog Websites
- LMS | ERP

COURSE DURATION

- **Duration:** 6–8 Months
- **Mode:** Online / Offline
- **Daily Classes:** 1.5 – 2 Hours

OUR SERVICES

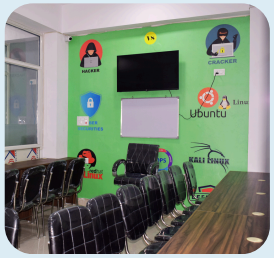

- CLASSROOM TRAINING
- INSTRUCTOR LED ONLINE
- CORPORATE TRAINING
- 1-ON-1 TRAINING
- SELFPACED TRAINING
- CAMPUS TRAINING

PLACEMENT PARTNERS
